High-Tech Tools For Animal Behavior Research

Noldus Information Technology develops and delivers innovative software and hardware solutions and service for the measurement and analysis of behavior. These allow our customers to advance their research, product development, training and education.

In this presentation, Dr. Patrick Zimmerman is a behavioral biologist with extensive experience in the study of animal behavior and welfare, animal learning and animaly psychology.

He will share his experience using Noldus system for video tracking, automated behaviour analysis, home-cage observation, gait analysis for high throughout and high-content screening research.

Invited Speakers

Dr. Patrick H. Zimmerman, Ph.D.
Behavioral Research Consultant @ Noldus
